B. Notion / Skool Action Board Layout

Columns (Kanban View):

1. Phase 1 – Awareness

 - Task: Create Lead Magnet PDFs (AI Toolkit, How-To Guide)
2. Phase 2 – Engagement
 - Task: Host Weekly Q&A
 - Task: Automate Email Drip (3-sequence nurture)
 - Task: Collect testimonials & case studies
3. Phase 3 – Conversion
 - Task: Activate Countdown Page
 - Task: Train Chatbot for Onboarding
 - Task: Stripe Checkout Setup
4. Phase 4 – Activation (Pods)
 - Task: Assign Members to Pods
 - Task: Open Tool Shed Access
 - Task: Hold Office Hours

5. Phase 5 – Integration (Hackathon)
 - Task: Create Hackathon Landing Page
 - Task: Recruit Judges / Sponsors
 - Task: Build MVP Showcase Stream
6. Phase 6 – Retention & Expansion
 - Task: Plan Weekend Retreat
 - Task: Draft Equity Offer Structure
 - Task: Initiate Corporate / Gov Outreach

Each task can include:

- Owner (team lead or automation)
- Due Date
- Tool Integration (Make.com, Stripe, Skool, Notion)
- Automation Tag: (#leadgen, #onboarding, #community)

I can now output:

1. A Canva-ready funnel graphic (exported image).
2. A Notion-ready CSV or Markdown board (so you can import straight into Notion or Skool).

Would you like me to generate both of those now?

If yes, please confirm:

- Do you want the funnel graphic in horizontal (16:9) or vertical (9:16) format?
- And should the Notion board be formatted for import (CSV) or visual reference (Markdown table)?

Excellent — here's what I'll generate next for you:

1. Visual Funnel Map (16:9) — A Hollywood-tech style graphic for your deck, showing the 363 system from Awareness → Retention.
 - Futuristic aesthetic: neon lines, cosmic colors (blue-purple-magenta gradient).
 - Ready to upload to Canva or Keynote.
2. Notion / Skool Workflow Board (CSV + Markdown) — A clean import-ready task board with weekly structure, automations, and KPIs pre-filled.

Before I produce them:

✅ confirm color palette (choose one):

- A. Cosmic Blue/Purple (default Fantasy Complex aesthetic)
- B. Gold/Black (luxury accelerator aesthetic)
- C. Red/Chrome (Mars-energy, Generator Pillar)

✅ and confirm: should the Notion board emphasize marketing funnel ops (ads, email, conversions) or community activation workflow (pods, hackathon, equity)?
