WHICH ONE ARE YOU?

Have you ever felt as if there was more to your life than you were aware of? Have you found yourself reminiscing about things you presently have no knowledge of? Or are you totally content with your existence here on Earth and never contemplate on that which lies beyond this physical plane?

Seriously, think about the answers you give these questions, for they may very well determine if you are a celestial being or a terrestrial being. What does this mean? First of all, celestial is that which relates to the heavens and is ethereal, immortal, angelic, divine. Terrestrial is that which is within your planet's atmosphere, that which is Earthly or worldly.

There are those beings who are spiritually born and have incarnated here on Earth. Their incarnation into this plane has brought about psychic powers which makes them feel different from others. They suffer a great deal of humiliation, sadness and depression. Their lives are often burdened with emotions they cannot explain which may result in an undefined nervous breakdown. Have you ever known someone who you automatically labeled as "crazy" because their ways and actions were so unlike your own? Well, it is very possible that this unusual person you have encountered is not "crazy", but a celestial being.

On the other hand, there are those beings who are born and conceived on Earth; most of their lives are much easier lived than celestial beings. They rarely feel out of place or out of

touch with their surroundings. This person you may have encountered is a terrestrial being.

I ask you now, are you (body, soul and spirit) of this realm, or are you (body, soul and spirit) of another realm? You must broaden your thinking to the realization that there are other realms and other beings that exist within these realms. You see, your planet Earth has shifted and you are now embarking upon a new era. Thus, this time is coming when spiritual events are taking place, the climate is changing, the temperature of the western part of the Grand Canyon is shifting, the Ice Age is melting, etc. All of this is happening because in the center of your planet there is an opening. Through this opening you will find, inside the core of your planet, there is tropical land where beings from other galaxies have come. These Supreme Beings have come to guide you, and in their efforts have been called many things by those who have little understanding. A spiritual contact by these Supreme Beings has, at one time or another, been acquired by even the least educated man. This is possible, for the spirit of the Omnipotent resides in us all, that essence which generates the life force within every living, breathing entity.

Once you have accepted this, more avenues of thought are introduced into your life which will better help you to determine whether you are a celestial being or a terrestrial being.

UNIDENTIFIED FLYING OBJECTS

Unidentified Flying Objects (U.F.O.'s) are

nothing new. They are labeled as "unidentified", however, they are identifiable only to those whom they wish to reveal the mysteries unattainable to mortal man. What are these U.F.O.'s? They are vehicles of transportation for other forms of intelligence much higher than yours, who would travel through space as gases and/or light. It was not until they got into the lower spheres of your planet Earth that they materialized. In this form of materialization, they were visible to some. Many learnt men have been in contact with them and in turn, have misintrepreted the knowledge acquired through their encounter. Citings are mentioned as far back as Master Ezekiel's time. In the Book of Ezekiel, now found in the Old Testament, he reported an object similar to a wheel in the skies.

Movies have also contributed to the misintrepretation of these Supreme Beings. They are depicted so that you will be discouraged and afraid to communicate with them. In doing this, your chance of elevating your spiritual body is

altogether hindered. You are encouraged to believe that the existence of such Beings is unreal, but the fact that so many people have spotted their vehicles of travel from different parts of the world is proof that they do exist. The reality of people experiencing unexplained encounters awakens you to a phenomenon that is not impossible.

THE MASTERS

The Masters are responsible for keeping the Universe in order. It is by way of these Masters of Old that most of the knowledge concerning the Mysteries was related to your planet Earth. We came to you as incarnations and possessing qualittes far ahead of your time; because of this our teachings have been misconstrued by many who chose to idolize us.

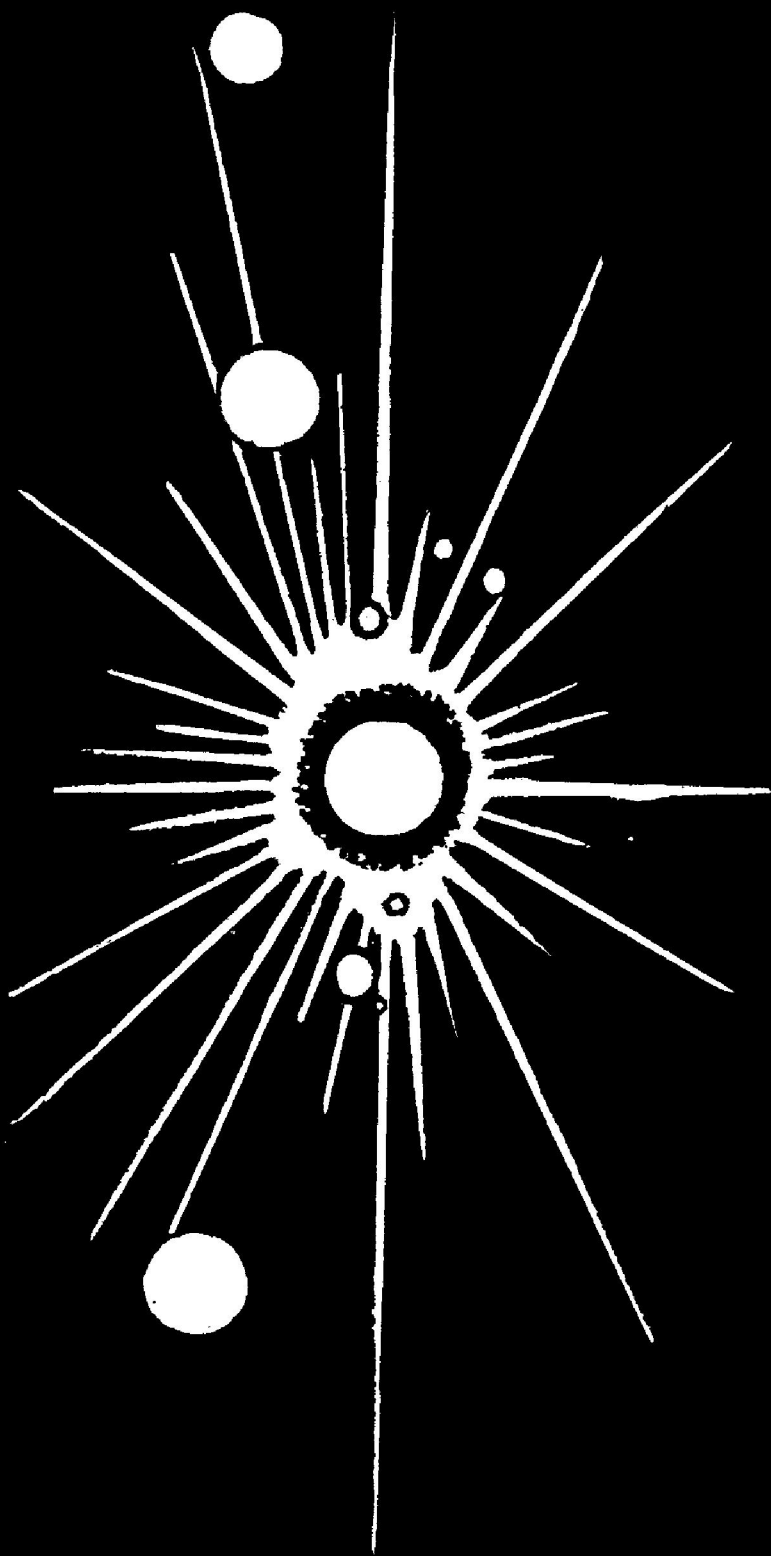

It is related that Master Jesus said you cannot know the spiritual unless you are born again. He knew, as I know, the secrets of life and death, for he was an incarnation of the divine in the flesh, an Avatar.

Avatars are the realization, the manifestation of the wishes of the world. By this I mean, Avatars came in the past to help other nations of people; and we are here now to remove the karma of this planet and change its fate, which is destruction.

THE GALAXIES

There are galaxies other than your own that are held together by mutual gravitation. They reside in other universes. There are 19

— Your-Solar-System —

universes and over 144,000 galaxies. Your planet Earth is in the third galaxy of the 19th Universe. Some galaxies are in their early stages, and are thus considered more primitive than your planet Earth. Then, there are galaxies that are further ahead in development than your galaxy, and there are some that have already reached judgment. The development or advancement of the galaxy depends on the sun.

Your galaxy is on its way to destruction, you are doing things on this sphere that are affecting other spheres. If you are physically bound you will not be able to escape the physical destruction and that is why I stress that you concentrate on your spiritual growth.

YOUR SOLAR SYSTEM

The solar system is the sun and the planetary bodies that revolve around it. The planet Earth is in only one solar system that sits in a galaxy which sits in a Universe. Within this solar system is your Earth and nine additional planets, making a total of ten planets. This solar system is equivalent to a grain of sand on a beach. It is 30,000 light years from the center of the galaxy, and located about midway between the upper and lower edges of the Milky Way. The Milky Way has many stars like your sun (which is a star) that are the center of different solar systems.

There is a particular relationship that your solar system has with other solar systems throughout the Universe. They all have celestial bodies that revolve around their own suns. This planet is moving in a galaxy that is

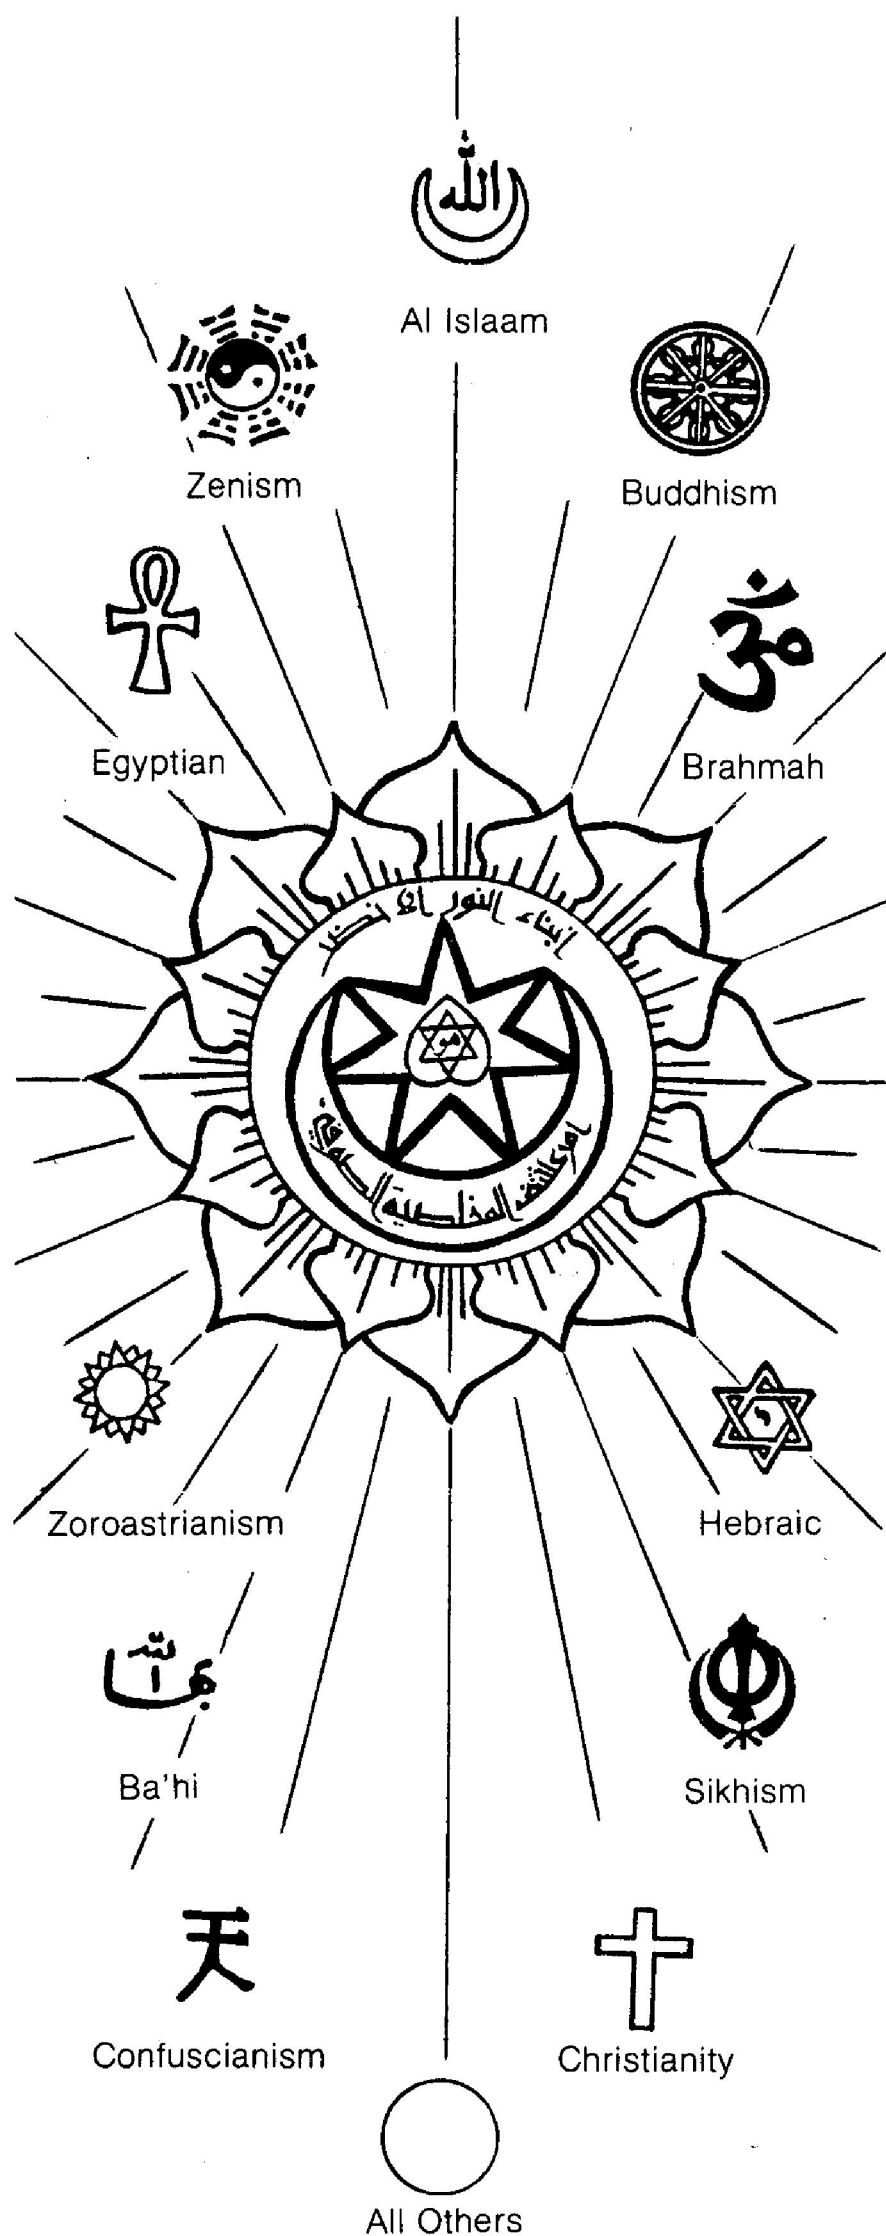

moving and if you observe, all of the molecules of the body are moving. The things you acknowledge by way of your senses vibrate. Your solar system follows a sacred tone, thus vibrating harmoniously with the Kosmos. You too can learn the sacred tone, for when you attune your soul to the celestial, you will be able to reach the Divine Love you have sought for many years.

THE AQUARIAN AGE

Now we are headed into a new era. Every 2,075 years, another cycle comes in. We are moving from the era of water (the Aquarian Age) to the era of air, which utilizes laser beams, video, ultra violet rays, etc. The Aquarian Age is composed of religions that deal with the lesser mysteries which are symbolized with water. The lesser mysteries are those esoteric teachings that have become religions. These religions started with a spiritual nature. The Masters came with spiritual doctrines and as time passed, the doctrines lessened and lessened until they became purely physical. This is why they are called the lesser mysteries.

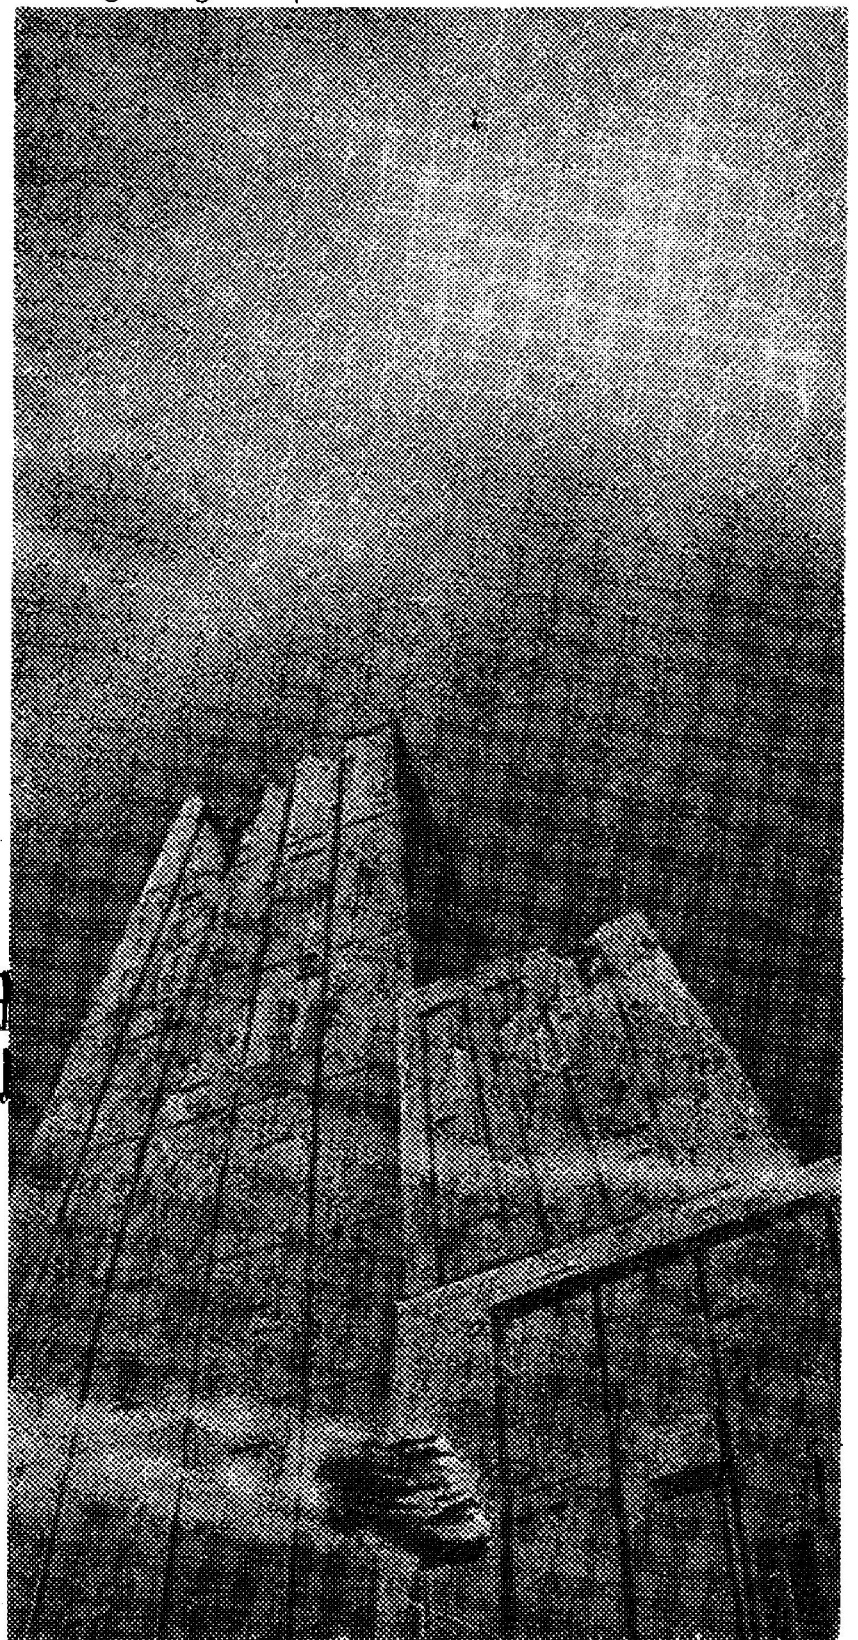

The era of air brings with it a new awareness. You are beginning to realize that there is more to man than just his five senses, that you can have connections with beings outside of your planet. Man is finally acknowledging that when your Old Testament mentions the "Sons of the Omnipotent" coming down that something took place, and that the cities of Mu,

The Universal Order of Love

And the Religions Of This World

Atlantis and Lemuria did not just disappear. You can now see that Supreme Beings do personify and bring revelations to those chosen to bring enlightenment to their people. With the many things that are happening before your eyes and within your grasp of understanding, you will know that man is elevating to a point where he is using his mind more than his body, and with this he will eventually evolve into a mental being. You will begin talking about strict discipline and the spirit, because you are seeking a higher spiritual world.

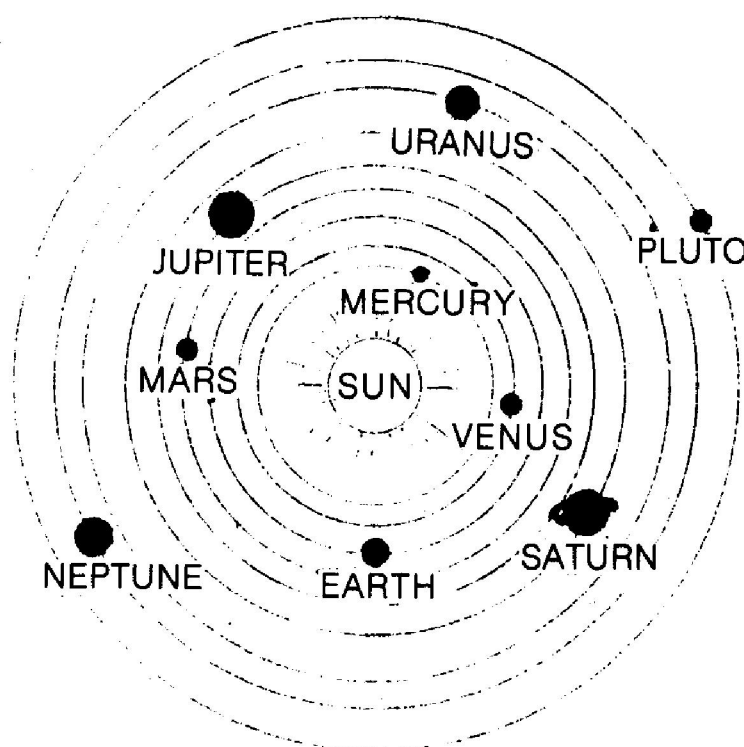

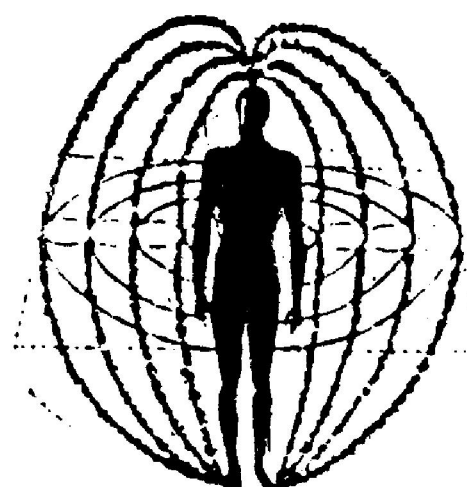

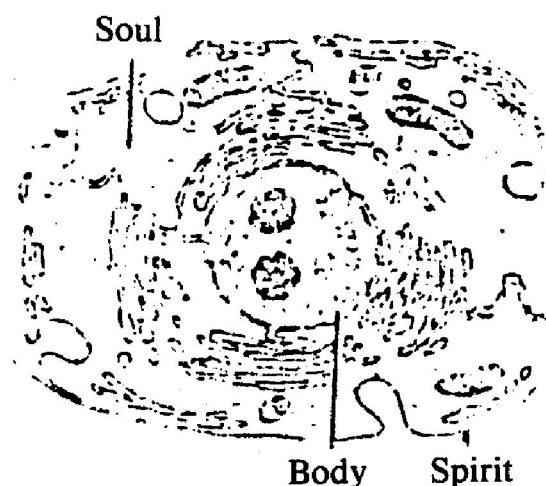

THE LATENT POWERS

The body is made up and functions anatomically by way of electrical impulses. Every move you make whether unconsciously or consciously, is an outcome of thousands of electrically charged cellular ions stimulating the end parts (dendrites) of the millions of nerve cells found in the body. Within your nervous system there are also occult nerves which are stimulated only under certain circumstances and are located in the spinal column and the brain. The brain itself is a major organ of the body which is electrically charged. Two examples of the power that the brain has is its ability to pick up different energy waves that are flowing free in the atmosphere, and its channeling in to another brain, actually seeing, feeling or knowing what the person is thinking or experiencing. This is the same principle behind a Citizens Band Unit, which although both receivers are miles apart, they can channel in and communicate through energy. This is the same way you can communicate from one side (mortal) to the other side (immortal). Man has to become aware of these latent powers within him and learn to channel these energies and elevate himself in spirit, transforming from a physical Earth-bound being to one who is full of the pure light. He then can seek the Source of Divine Love and return to it, a pure spirit.

Since Earthly beings are receptacles of flowing energy, the energy currents around in the environment inevitably affect you. The mind deals with every little thing the body receives. Just like the sense of taste and smell, one is internal and the other is external, yet an external

smell reacts upon the internal taste buds to cause a stimulation.

Every mood you're in whether it is anger, joy or sadness, generates a certain flow or energy which can, if permitted, expand and incorporate others in it. You must learn how to avoid being susceptible to bad outer forces and open to good forces. Thus, you establish harmony within yourself while teaching others to live in peace.

There is another kind of energy that can be seen by those who are sensitive to the "unseen" things. This is called the aura or the HAALAT; it appears two or three feet away from the body. The Haalat is looked upon as the atmosphere of the body, because it reflects the "real" body; its mental mood, health and character. The purer you are the more illuminated your Haalat will be. Your aura has colors that reflect your moods. The aura can be a multitude of mixtures depending on the different moods you go through.

You have the potential to evolve into beings of an all spiritual nature but you are rejecting it. You are catering to your physical needs and ignoring your spiritual needs. The soul inside you belongs to love, it only speaks in love; the body is the problem. You must step out of the body and become a spiritual being so that when the time comes you will live on as other generations have done millions of years ago. The people of Atlantis were an empire practicing transforming themselves for they saw that their environment was heading toward destruction.

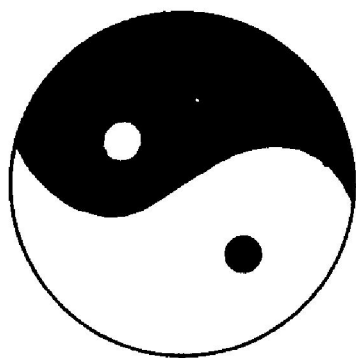

This is what you have to learn to do. You have already within you a latent power. It is waiting on you. You can mentally prepare yourself and decide to change the way you have been programmed in this society. What has happened to you is against your heavenly nature. With meditation, fasting and self discipline you will be able to rule the body.

The Source of all life is Divine Love, for it is moving inside you. It is a healing force. As you keep a proper diet and a healthy body, you become a hospital within yourself, a MASHAFA'A مشفاء from the root word SHAFIY شفى which means to cure, to heal off a disease or to make someone well or restore to health. And in the Sufi way of life, you seek to cure yourself and others by excelling in your mental powers. So you see, you are a heavenly being and with the right guidance, you can become a god again.

THE MEDICAL SYMBOL

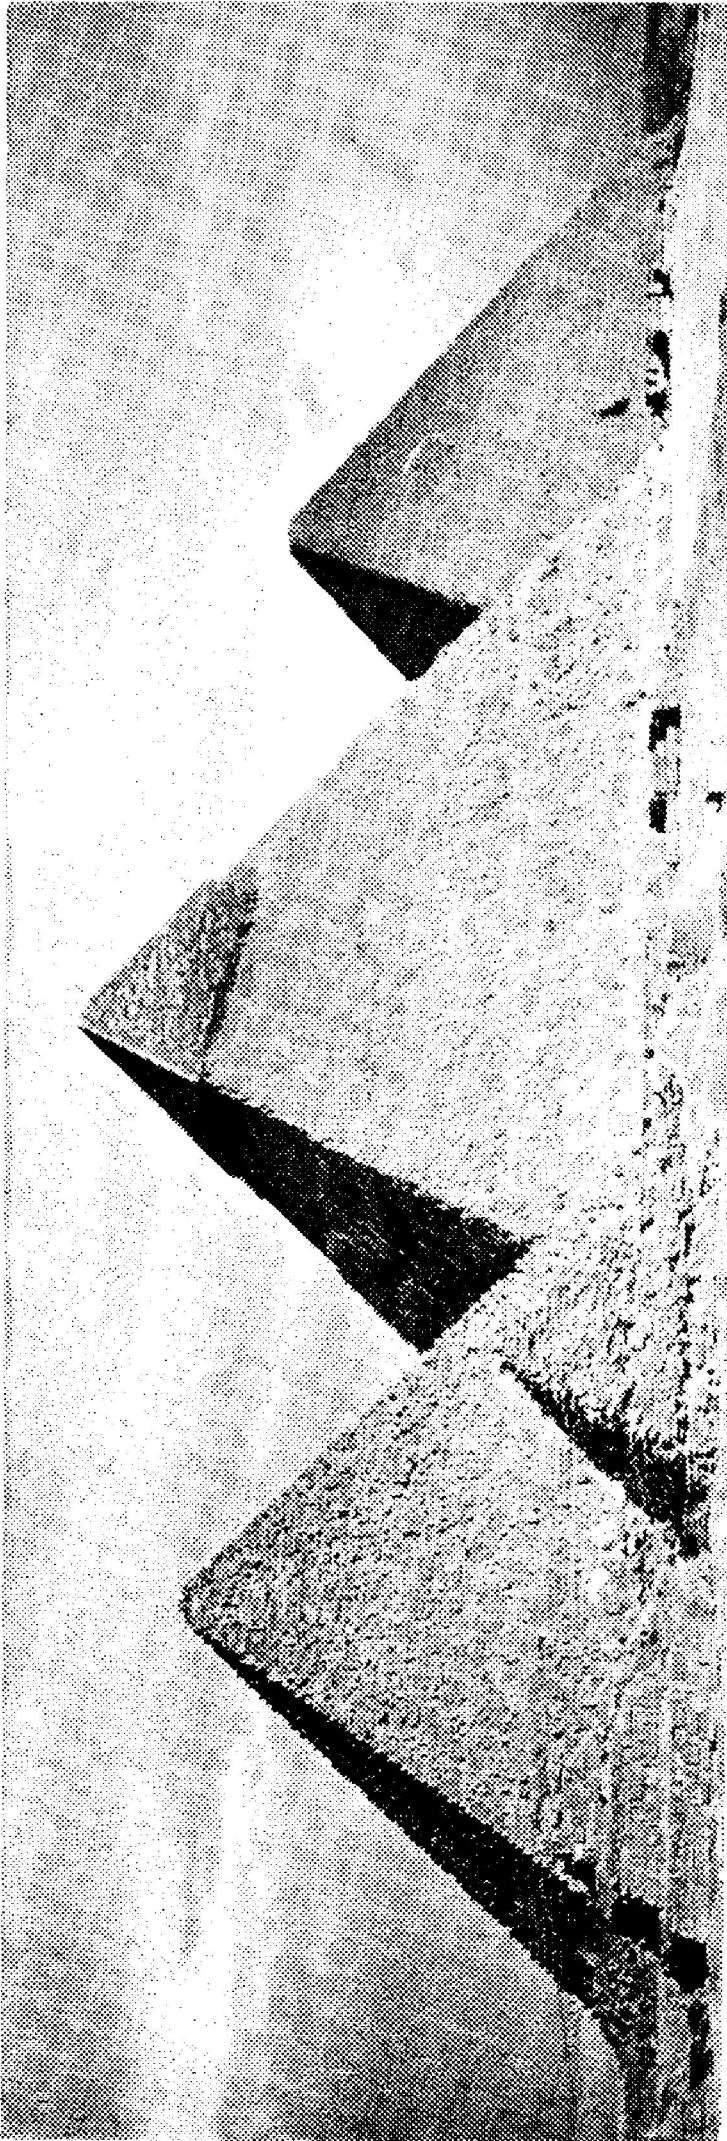

The medical insignia of two serpents wrapped around a pole has a very interesting origin. Some call this symbol KUNDALINI. "Kund" means to burn, "Kunda" means a coil or spiral. These words come from Sanskrit origin. In ancient times, the serpent was a symbol of the latent powers within a being. It shows that the third eye is open. These powers that mortals have not yet developed are also called by some as LATIFA or CHI. I tell you this, for it is important that you learn and have proper guidance in order to travel in this Kosmic energy and not enter into doors you may never find your way out of. Before you even start to practice attuning yourself to the Kosmos, it is necessary to follow certain fundamentals that will lead you into a pure state, achieved by healing forces which can be directed by students of the mystics, saliks and Mutasawwifa (plural for Sufi).

These mental powers are raised from the CHI, which are the twelve centers known in the Hindu faith as the twelve cobras of the mind. If you learn how to bring this energy up to the centers, it will reopen what is known as the third eye or your inner eye.

The Masters of Old had full use of their latent powers as well as other powers. For example, Master Jesus was a chemist; he studied medicine, math and the sciences. He also told his followers as I tell you that they also had these powers. Another was Master Ezekiel, who told his followers of the celestial vehicles of which he knew about. He explained to them that through the utilization of their CHAKRAS, the seats of energy within them, they would be able to break the gravitational forces which now imprison you and keep you bound to the physical realm instead of releasing you into your pure state.

You must realize that there is more to mortals than just the five senses. I know that you have extrasensory perception, or extra senses which I have explained to be a channeling of electrical waves. As previously mentioned, mortals have found out recently about the astral body, the Haalat and the connection with beings outside of this planet. Archeologists just now concluded that the pyramids were not just built by men, for there is too much mathematics involved in their construction. They are realizing that there was a highly intelligent generation of people who had mental powers and were educated geniuses. This has been known for millions of years but yet mortals are just discovering these facts.

Remove yourself from the cares of this world for a Sufi has no worries, and his sole concern is the Omnipotent. Do you see that the simpler your life is, the more love you generate; for you have not concerned yourself with the physical commodities or the classification of society which only breeds greed and selfishness.

Divine Love is waiting to be brought to the surface, it is moving inside you. It is brilliantly green, a light that is stirring and wanting to come out. You don't have to wait to be a good person, you are a good person inside. Take a look, be honest with yourself and you will become aware of the beauty that lies inside. Look at your brothers and sisters and see the good in them. How can anybody be bad if they have a part of the Creator of the Galactic heavens inside of them. Let love dwell within your being, and you will begin to love others.

The key that will take you to other realms is now available to you, the seeker of a divine

connection; the link that will strengthen your inner being. I speak the language of men so that you may understand the greater mysteries. The doors you are about to enter are the thresholds to the psychic, that rekindle the spiritual self.

As you journey with me, you will feel the spiritual energies that flow through you, thus revitalizing your physical vessel with new life. Many have already taken the first step toward the emanating light, into the corridors of the Ancient Mysteries.

Don't wait until the key is returned to its keeper. Remember what happened in the city of Mu. Reflect on the reality that what happened before will happen again; and if you are not prepared to deal with this reality, pass this pamphlet on to another being, who in turn may be waiting for the opening of the Kosmos. Fear not the darkness if you walk in the light. The Sacred Writings are ready to be rediscovered, will you be of the chosen? Or will you prefer to be like those who rejected the Masters of Old, denying the divine teachings, seeking only to gratify your physical needs. Do you want to remain as stones, too hard to receive Divine Love, conforming to your terrestrial bondage?

You have a very prophetic descendency. You have millions of years of knowledge of the mystical realm as well as the scientific knowledge at your fingertips. You are as the lotus flower whose petals are opening to the light. Remember, only the buds that are ready will blossom, and if you wait too long you may be one of those that may never bloom.

At this point, you are that Sufi who has traveled in the world seeking the truth in this very horizontal knowledge. Now, through the Sufi Order of the Sons of the Green Light, whose

mission is to bring you out of your physical chains, you have found the spot and are ready to blossom and make the vertical contact, the contact with the heavens.

I will take you to the next step. I will take you to a marriage with the heavens, so that you may develop those powers and move toward the path of becoming a celestial being.
