

YOUR FIRST SALE WAS PROOF. NOW BUILD THE MACHINE.

"The shift from individual transactions to recurring revenue systems."

3 SCALE LAWS

1. **VOLUME OVER VANITY** – MRR is the only metric that matters here. Not followers. Not likes. Monthly Recurring Revenue.
2. **SYSTEM OVER HUSTLE** – Stop selling one-at-a-time. Build the pipeline that sells for you.
3. **PROOF OVER PROMISE** – Case studies, screenshots, and receipts beat every pitch deck.

Turning your first sale into a repeatable acquisition engine. We move from "\$1 earned" to "\$500-10K/month MRR." This is the revenue multiplication phase – where the system starts compounding.

SCALE TROUBLESHOOTING GRID

GLITCH	FIX
CRM not populating	Check Connector permissions. Manus needs write access. Test single record.
Drip sequence fail	Verify Kimi Claw schedule timezone. Test fire manually before activating.
No outreach response	Too generic. Run through Claude: "Make this specific to [INDUSTRY] pain."
Early upsell trigger	Delay trigger to Day 21+ minimum. Let client get value first.
Weak case study	Add a number. "Saved 3 hours" beats "saved time." Quantify results.
Can't hit \$500 MRR	Drop price/increase volume OR increase price/improve positioning.

SECURITY PROTOCOL — SCALE LEVEL

CLIENT DATA PROTECTION

- ► Store client info in encrypted Notion database (not in agent chat logs)
- ► CRM Access: Manus should have view + add permissions only
- ► Outreach Compliance: Follow CAN-SPAM / GDPR (include unsubscribe)
- ► Payment Security: Never share Stripe dashboard screenshots

DO CHECKLIST

- ☐ Written agreements for all recurring clients
- ☐ Separate business bank account
- ☐ Invoice every transaction (paper trail)
- ☐ Privacy policy on lead capture page
